FURTHER INFORMATION

FORMAT

The purpose of this workshop is to promote the debate and interaction between different actors who, in one way or another, have been part of the process of exhumations of mass graves of the Spanish Civil War (associations, institutional representatives of memory agencies, and academic specialists). The discussion will be organized through several thematic sessions focused on specific questions, which are related to the scientific objectives of the European project UNREST.

Formal interventions will be of a maximum of 7 minutes, during which the speaker gives, in very general terms, his reaction to the questions specified for each table. Subsequently the debate, moderated by the chair, will be open to all the participants of the workshop.

It is a closed workshop, which will be videotaped, translated and subtitled in English, and shared with other researchers of UNREST and with the general public through the project's website (www.unrest.eu).

PLACE

Room MANUEL DE TERÁN (3F)
Center for Human and Social Sciences, CSIC
C./Albasanz 26-28
